

# Medical Spanish Immersion & Electives in Peru

## Learn how to work effectively with Spanish-speaking patients

*"My time with Medical Electives was truly incredible. I completed a 4 week placement and spoke basically no Spanish before I arrived. The program felt more like a family than a placement during my time."*

Claudia, Medical Student

Our immersion programs in Peru for healthcare professionals and students offer a unique opportunity to take an intensive medical Spanish course and/or a clinical rotation in one of several partner hospitals.

- Delivered at all levels
- CME accredited with AFP up to 82 credits
- 4 or 7 hours of classes per day
- Extensive range of topics
- Pre course materials

## A TYPICAL DAY

## HOMESTAY ACCOMMODATION

Students love their Homestay families and the authentic experience this brings.

### *Our friendly and caring hosts provide:*

- Constant Spanish practice
- 2 meals a day
- Wifi & cable
- 80% have private bathrooms
- Laundry facilities
- Walking distance location
- Local cell & gym membership

## COMMUNITY HEALTH FAIRS

A unique aspect of our program (and one our students love) is the opportunity to provide healthcare consultations to underserved communities around the city.

Each week we visit a different location (including schools, community centres and prisons) and see around 50 patients.

***"I would highly recommend this program for anyone in the healthcare field looking to learn or improve their Spanish language."***

Eung-Mi, Junior Doctor
